## STOP PRESS

**Dog Chases Cat!**  
Reports are coming in that a dog has chased a cat. "Councils Animal Tactics Squad", CATS made the allegation when they noticed their revenue fell short of their monthly budget. Harvie Q, an English Staffie, was picked out from a CATS line up. His lawyer, Jack Russell QC said his client was framed. "The line-up consisted of 2 poodles, a wildebeest and a toey chicken call Crispy".

**Grammie's Drug Charges**  
Four women all in their eighties have been charged with drug offences. All are part of the Five-dock Chapter of "Beryl's Angels" who have been linked with dodgy Bingo games, black market lanterns and driving slowly in the right lane. Police moved in when an off duty police officer was offered a "powder" by gang leader Beryl Corby. A search of her boogie board bag revealed 782Kgs of hemp. She claimed to have no idea how it got there.

**Penisular Living with Judge Kirk**  
Every day locals stop me in the street, face beaming with subservient stupidity and ask, "Judge Kirk, don't you just love Penisular living?". I ponder, mmmm, indeed an often asked question. So what is it about me that makes you so crave my opinion?  
Is it my incredible wealth, my dashing good looks or is it simply my superior intelligence? Wealth isn't everything. Sure it can buy you a castle on the Penisular complete with Ferrari, but can it buy happiness? It's obvious that I am blessed with striking masculinity and yet a cat walk would not seem unfamiliar, but does being so attractive truly bring happiness? Having an IQ twice yours means I get to play Judge and wear a wig and gown. But does being a professional cross-dresser bring happiness? So can a man being so rich, so intelligent and so good looking be truly happy?  
**YES! YES! YES!**

The Idiot Special Report

### Is your Dog a Meth Mutt??

Also known as Ice, Meth, Doggy-Style & Special K9 this incipit drug has found its way into the doggy parks across Sydney. It started out with a few corrupt drug sniffing beagles and now its everywhere. At Bones Nightclub a well known magnet for Meth-Mutts, police arrested a King Charles Cavalier and a Rottweiler under the new Anti-Meth-Mutt laws. A search of their luxury kennels in Birchgrove uncovered the first of a new breed of highly sophisticated Meth-Labs, a cache of sticks and thousands of dollars worth of bones. Clinical physiologist Dr Harvie said Meth-Mutt is destroying the doggy youth of today. Scantily clad poodles who should be a puppy school have been seen selling themselves along Victoria Rd in order to buy their next hit. "It's up to you and I to protect our children. Search their kennels, follow them down to the park, do what ever it takes."

**Tell Tail signs of a Meth Mutt**

- Hanging out with the wrong types (Poodles, Maltese Terriers & Jack Russells)
- Comes home late often irritable, nervous and scratching
- Increased sensitivity to noise, possibly barking at complete stranger in your home.
- Bad breath and a need to lick
- Changes to in appearance particularly the face

For more information contact Dr Harvie at the Mutts on Meth 1-800-MUTTS-ON-METH

## Parking Meters to be abolished!

By Harvie Q

A spokesperson for the council said last night that parking meters will be abolished. According to council, "parking meters", (from the Latin *Pakous Metrous* meaning "my goat has fleas") were first introduced by councils in 1326 to prevent the spread of Bubonic Plague. During the 60's the council claims they used them to prevent nuclear war with the former USSR. Today the council tells us they are for traffic management. Councillor Fullofit said "As there are less cars on the roads and the number of parking spots growing every day, an honesty box would replace the meters & exotic dances will replace the parking officers." (*Craaaaap*)

**Harvie Q rescues injured bone from restaurant.**  
A large bone injured in a Japanese restaurant's kitchen was saved last night by the heroic actions of Harvie Q. (*Rueters*)

## Unarmed Robbery

By Harvie Q

Three heavily armed armless men burst into the HQ Prothesis Clinic demanding to be re-armed. The armed armless men disarmed an armed security officer after threatening to harm a disarmed unarmed assistant. Within moments of re-arming, two of the now armed armless men triggered an alarm and were disarmed by an armed security officer. The third armless but heavily armed man rearmed but slipped leaving him disarmed but still armed. Responding to the alarm, police called for calm after disarming the unarmed man. The unarmed man claimed he knew nothing and was just lending his mates a hand. (*CW*)

## Idiots Fish Market Report

### WOMAN EATEN BY FLYING ELK!

A Penrith woman visiting the Sydney fish markets, died when a large male elk leaped 1266 feet (12.7 kilometres) from the top of the ANZAC bridge. The Alaskan Big Horn, appeared to be yawning as it hurtled towards the woman who was looking up at that exact same moment. The woman's head and upper torso had to be removed from the elk's throat along with her camera, mobile phone, keys, laptop and two kilos of green prawns. Police had already arrested the same Elk 12 times this year for being off-leash in a public area and for the 8th time for manslaughter. The Alaskan Big Horn is protected in Australia and enjoys ballroom dancing, base jumping and quiet nights at home. (*Foxxxxnews*)
